Multiple Candidate

The screenshot displays the Mukesoft Proctoring interface for a batch named 'COGNIZANT HR'. The interface includes a top navigation bar with 'Batches', 'Analytics', 'Results', and 'Live Feed' tabs. Below this is a grid of 18 candidate video feeds, each with a name and a red indicator in the top left corner. A chat window on the right side shows a list of candidates and a chat history. Annotations with numbered boxes highlight specific features:

- 2** Admin can watch candidate video live
- 4** Live images of all candidates taking the test updated every few seconds
- 3** Automatically generated invigilation warnings
- 4** Chat with a candidate
